

## "That's Vinyl" Enrichment Instructions:

The following flyer contains pictures of different projects along with the size and price for each one. Please pay attention to what the price does and does not include. In most cases, the price does include the vinyl, tiles, and wood, but not the paint, ribbon, or picture frames where necessary.

Please look over the different ideas presented and choose 3-5 project ideas. (ex: if you choose the overlay boards, choose just 1 of the different quote options) For the best response, you want to have a variety of projects, but not a lot of quote/scripture options.

I will choose the fonts and they will be the same for each project, but they may not be the same as what is shown in the picture. It will, however, be very similar.

I am always open to new ideas too! If you have seen something you like or have an idea in mind, please let me know and I can work out pricing.

I always encourage people to get their Christmas shopping done now by making personalized gifts for their family and friends!

Thank you for your interest in "That's Vinyl" for your Enrichment/Super Saturday needs. Please let me know if you have any questions and I will be happy to help!
